RENEWED SUBMISSION UNDER 37 CFR 1.497(d)

Dear Sir:

Applicant hereby responds to the *Decision On Request Under 37 C.F.R. 1.497(d)* dated September 20, 2006 (the "Decision"), wherein it was requested that Applicant provide 1) a statement from the deleted inventor stating that any error in the inventorship in the international application occurred without deceptive intent on his part, 2) the written consent of the assignee if an original named inventor has executed an assignment and complete copies of the declarations executed by the inventors.

Attached hereto as Appendix A is a document entitled *Statement By Deleted Inventor* signed by Michael D. Cahalan, wherein Dr. Cahalan states that the initial

inclusion of his name as an inventor on the international application was an error that occurred without deceptive intention on his part.

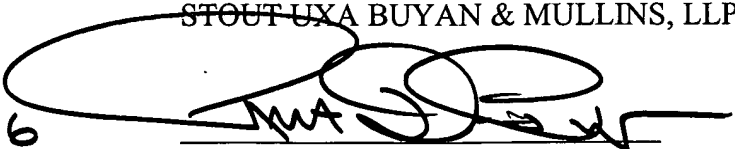

Also, attached hereto as Appendix B is a document entitled *Assignee Consent For Deletion Of Inventor* signed by Linda Stevenson, Manager of Patent Prosecution for the Regents of the University of California. Dr. Cahalan, the deleted inventor, has not executed an assignment that is specific to this United States Patent Application Serial No. 10/533,060 and, thus, assignee consent may not actually be needed in order to comply with 37 C.F.R. 1.497(d). However, the enclosed assignee consent is nonetheless provided to the extent that Dr. Cahalan may have executed other assignment documents relating to his inventions in general and/or to the provisional application to which priority is claimed in this case.

Also, attached hereto as Appendix C are complete copies of each declaration as previously signed by the inventors. The "xxxx" markings on the signature pages were placed on the signature pages of two of the declaration copies before they were sent to different locations (i.e., Davis, California and Berlin, Germany) to ensure that each copy would be executed only by the intended inventors and to avoid unnecessary and unintended circulation to other inventors who were not intended to sign that copy of the document. These markings were not affixed "after" execution by the inventors as presumed in the Decision. Moreover, these markings merely occupy blank space do not "modify" any language, content or substance of the declaration in any way. Accordingly, the copies of the declaration attached hereto as Appendix C are believed to fully comply with all applicable laws and regulations and acceptance of these documents is respectfully requested.

The PCT Attorney Advisor is invited to telephone Applicant's undersigned counsel to discuss any further measures that may be required for granting of this petition. No fee is seen to be due, however if any fee is properly deemed to be due, the Commissioner is authorized to deduct such fee from Deposit Account No. 50-0878.

Respectfully submitted,
